

Free-Standing Sliding Gate

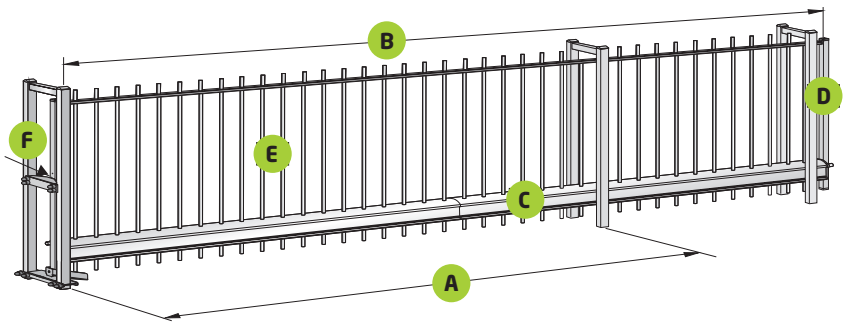

SV DELTA

The perfect combination of functionality and design

The **SV DELTA** gate is the only gate capable of sliding suspended; it has already received the "GOOD INDUSTRIAL DESIGN" award. Its modern and attractive design only serve to enhance the company's image. The **SV DELTA** gate exists in a wide variety of colours thus allowing it to blend in or cause contrast with the environment in which it's inserted, it's possible to place your company colours on this gate.

When it comes down to functionality, the **SV DELTA** gate has no competition! Unlike other gates that require heavy handling, the **SV DELTA** gate responds to the lightest touch. Its design will always be ensured thanks to its suspended or freestanding design; its aluminium profile never touches the ground thus avoiding problems caused by objects functioning externally. The modular design of the gate with brackets, bars and separate towers, it is repaired quickly and economically. If you enjoy a nice appearance coupled with quality, then the **SV DELTA** gate is the right choice.

Galvanized and Lacquered finish. The standard **SV DELTA** model is always supplied with a Galvanized finish, but, if required, it can also receive a colour Lacquered finish, RAL colour chosen accordingly to RAL standards: **RAL 6005, RAL 3000, RAL 5010, RAL 7030, RAL 9005 and RAL 9010**. The high quality lacquer finish gives a greater special appearance and durability to the gate.
